

Via Verde de la Sierra

Cycling - 36km Easy

This is a very popular ride along the wide, unsurfaced track of a disused railway line. We do the downhill version of this route, making it an easy ride, suitable for families and leisure cyclists. The route meanders through valleys, olive groves, forests and along flowing rivers. You will pass through 30 tunnels (the longest is nearly 1km in length) and over 4 viaducts. Ride past a vulture colony, high up on the cliffs, and pop into the visitor centre to watch the "vulture-cam". This route is self-guided; we drive you to the start point at the old station building in Olvera (approx 45 minutes from Ronda) and the minibus meets you in Puerto Serrano to bring you back to Ronda.
