

Africa Mirador and Rio Guadiaro

Mountain Bike - Moderate to Challenging

A dramatic ride with long climbs, great descents and fantastic cross country riding. This route will see you climbing high for fantastic views of the Genal valley, the Alcornocales Natural Park and the Guadiaro River before enjoying some of the best descents in this area, on fast twisting trails through holm oak forests.

The highest point of our ride is the Africa Mirador, which offers unrivalled views of Gibraltar's famous Rock and across the Mediterranean Sea to Africa. It lies on the path of many birds (particularly large birds of prey) on their bi-annual migrations between Europe and Africa. We finish by the River Guadiaro for an optional cooling dip and a well deserved drink at our favourite bar in Jimera Estacion.
